Water Main Replacement Group Job 3008: E-Newsletter #10

This is the 10th e-newsletter for Water Main Replacement Group Job 3008. The newsletter will be distributed bi-weekly for the remainder of the project to keep the community informed about construction progress. The next e-newsletter will be distributed the week of August 17, 2009.

Project Description

The water main replacement work for Group Job 3008 is well underway. Group Job 3008 consists of two sections - Group Job 532 and 533. Construction crews are now replacing the existing cast-iron mains that are nearly 60-years old and are at the end of their service life.

The project will:

- replace 17,979 feet of 16" cast iron water mains
- improve service reliability
- minimize future water main breaks caused by aging pipes
- increase the size of existing pipes to better serve the area

Total project cost is \$5,777,000.

Contact Information:

General FAQs:

www.sandiego.gov/engineering-cip

Crews continue installing 16" diameter pipe during night-work hours along N. Harbor Drive.

Upcoming Construction Activities

Currently, construction crews are working on Group Job 532 (see *Orange dotted line on map below*). The crew is working to minimize impacts to all those who travel in and out of this area.

During the week of August 3 crews will:

Day work:

Install 16" diameter pipe (approx. 500' of pipe will be laid) along N. Harbor Drive from Ash Street down to Broadway.

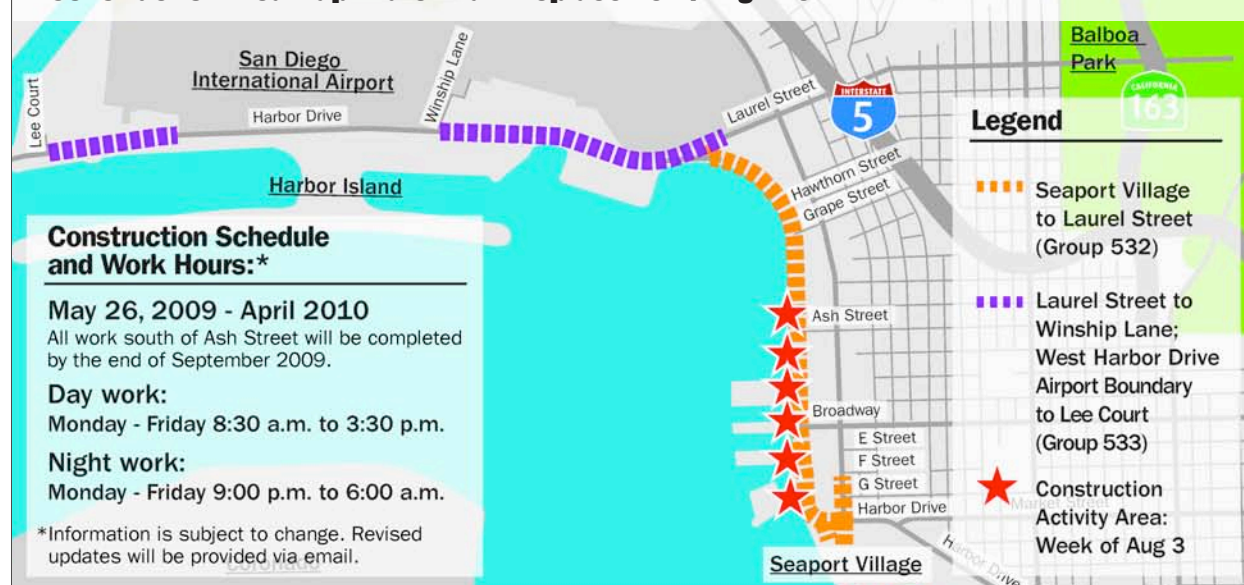

Night work:

Continue digging trench from N. Harbor Drive up to Broadway.

Traffic Control:

Temporary road closure during night work will occur from 9 p.m. to 6 a.m. on N. Harbor Drive from Seaport Village Parking Lot to Broadway from July 27-30.
